UNITED STATES DEPARTMENT OF AGRICULTURE

AGRICULTURAL RESEARCH SERVICE PLANT QUARANTINE DIVISION

LIST OF INTERCEPTED PLANT PESTS, 1958

(List of Pests Recorded From July 1, 1957, Through June 30, 1958, as Intercepted In, On, or With Plants and Plant Products Entering United States Territory)

Compiled by
Judith Hunt
Plant Quarantine Aid

INTRODUCTION

This report, covering the 45th year for which interception lists have been issued, summarizes the records of insect pests, plant pathogens, and certain other organisms found in, on, or with plant products (1) imported; (2) offered for but refused entry; (3) held as ships' stores, etc., and hence not offered for entry through customs; (4) offered for entry for immediate transportation and exportation in bond; and (5) in domestic shipments between the American Virgin Islands, Hawaii, and Puerto Rico and the mainland.

The pests listed include insects, snails, fungi, bacteria, nematodes, and viruses causing injury of known or potential plant quarantine significance to the United States. Some common organisms are included if they are (1) new to the country of origin, (2) new to the host plant, or (3) of such limited distribution in the United States that

they are worthy of mention.

The data for this list, which includes some for the previous year, are largely obtained from identifications made by specialists of the Entomology Research Division and Plant Quarantine Division, supplemented by information supplied by State officials. Some, however, represent critical studies and determinations made by specialists of the Crops Research Division who also identified many of the host plants cited.

All scientific names are reviewed by specialists in the Department to assure conformance to the International Rules of Nomenclature.

Every effort is made to give the correct origin for all collections listed; questionable cases are omitted or the origin is listed as unknown.

INTERCEPTIONS FROM AIRBORNE MATERIAL

Air importations from many parts of the world continue to bring an increasing number of viable plant pathogens, living insects, and other pests, which require constant vigilance to apprehend them at the ports of entry.

During the year, 5,502 pest interceptions were made from plant material arriving in baggage, express, freight, mail, and stores. Of the total, 4,898 were insects carried on plant parts or as stowaways,

and 604 were plant diseases.

Some important insect interceptions in airborne material were:

Adoxophyes orana on lilac in cargo from the Netherlands.

The citrus blackfly (Aleurocanthus woglumi) on citrus leaves in baggage from Mexico and Nicaragua; and on citrus leaves in stores from Mexico.

The Mexican fruit fly (Anastrepha ludens) in mango in baggage from Mexico; in orange in baggage from Guatemala and Mexico; in orange in stores from

Guatemala; and in pomegranate in baggage from Mexico.

The West Indian fruit fly (Anastrepha mombin praeoptans) in guava in baggage from Mexico; in Malay-apple in baggage from Guatemala; in mango in baggage from Central America, Costa Rica, Cuba, Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Jamaica, Mexico, Nicaragua, Panama, and Puerto Rico; in mango in cargo from Cuba; in mango in mail from Puerto Rico; in purple mombin in baggage from El Salvador, Guatemala, Honduras, and Nicaragua; in purple mombin in quarters from Central America (country (?)); and in yellow mombin in baggage from Honduras(?) and Nicaragua. A. mombin praeoptans(?) in yellow mombin in baggage from Trinidad.

Apion carduorum in globe artichoke in baggage from Italy.

The Mediterranean fruit fly (Ceratitis capitata) in cactus fruit in baggage from Italy; in coffee in preflight inspection of baggage leaving Hawaii for the mainland; in fig in baggage from Italy; in guava in baggage from the Azores and Portugal; in Mandarin orange in baggage from Israel and Libya; in mango in baggage from Egypt; in olive in baggage from Italy; in orange in baggage from the Azores, Israel, and Italy; in orange in quarters from the Azores; in orange in stores from the Azores and Italy; in peach in baggage from Italy and Tunisia and in peach in stores from Italy; in pear in baggage from Italy and in pear in stores from France(?); and in plum, pomengranate, and quince in baggage from Italy. C. capitata(?) in orange in baggage from Brazil; in orange in stores from Spain; and in sweet lime in stores from the Azores.

The Asiatic rice borer (Chilo suppressalis) in rice straw jackets in baggage from

Cylas formicarius ssp. in sweetpotato in cargo from the Philippines; and in sweetpotato in quarters from Thailand.

Cylas formicarius var. in sweetpotato in cargo from the Philippines.

Cylas formicarius formicarius in sweetpotato in cargo from the Philippines and Thailand; and in sweetpotato in stores from the Philippines and Singapore.

The oriental fruit fly (Dacus dorsalis) in avocado, bitter almond, coffee, mango, Passiflora sp., and vi-apple in preflight inspection of baggage leaving Hawaii for the mainland; and in vi-apple in preflight inspection of mail leaving Hawaii for the mainland. D. dorsalis(?) in pomegranate in preflight inspection of baggage leaving Hawaii for the mainland.

The olive fruit fly (Dacus oleae) in olive in baggage from Italy. D. oleae(?) in

olive on tray of hors d'oeuvres from an unknown origin.

Tahitian coconut weevil (Diocalandra taitensis) on coconut in preflight inspection of baggage leaving Hawaii for the mainland.

Malacosoma neustria in cherry cuttings in baggage from Japan.

Maruca testulalis with mauna loa lei in preflight inspection of baggage leaving Hawaii for the mainland; in peas in mail from Puerto Rico; and in string bean in baggage from Puerto Rico.

The pink bollworm (Pectinophora gossypiella) in cotton boll in baggage from Jamaica; in cottonseed in baggage from Cuba and Paraguay; in Malvaceae seed

in cargo from Angola; and in okra in baggage from Barbados.

The European corn borer (*Pyrausta nubilalis*) in pepper in baggage from Italy;

and in tomato in stores from Italy.

Rhagoletis cerasi in cherry in baggage from Belgium, Germany, Italy, Spain, and Switzerland; in cherry in quarters from France; and in cherry in stores from the Azores, France, Italy, Portugal, and an unknown origin.

Interceptions of airborne plant pathogens of interest were:

Cercospora coffeicola on coffee leaves in baggage from Brazil and El Salvador.

Cercospora insulana on statice in baggage from Peru.

Chrysomyxa ledi var. rhododendri on rhododendron leaves in baggage from Switzerland and in mail from Austria and Switzerland.

Colletotrichum crassipes on Crataegus sp. in baggage from El Savador. Curvularia geniculata on betel palm in express from Pakistan.

Elsinoe australis, the sweet orange scab, on lemon in baggage from an unknown

origin and in stores from Brazil; on orange in baggage from Brazil and an unknown

origin; and on orange in stores from Argentina.

Phoma citricarpa (the black spot of citrus) on Citrus sp. peel in baggage from Hong Kong and the Philippines; on lemon in stores from Australia, the Union of South Africa, and an unknown origin; on Mandarin orange in baggage from China, Hong Kong, Japan, Philippines, and Thailand; on Mandarin orange in quarters from an unknown origin and in stores from Japan; on orange in baggage from an unknown origin; on orange in quarters from the Union of South Africa; on orange in stores from Australia, the Union of South Africa, and an unknown origin; and on Satsuma orange in baggage from China.

Puccinia horiana on chrysanthemum in baggage, quarters, and stores from

Japan.

Septoria selenophomoides on an orchid leaf in cargo from the Union of South

Africa.

Sphaceloma fawcettii var. scabiosa on lemon in stores from Australia. Sphenospora kevorkianii on Huntleya sp. in baggage from Costa Rica. Uromyces commelinae on Geogenanthus sp. leaf in cargo from Colombia.

Xanthomonas citri (citrus canker) on grapefruit(?) peel in baggage from Pakistan; on lime and sour lime in baggage from India; and on orange in baggage and stores from Japan.

"Yellow spot" virus on camellia leaf in baggage from the Netherlands.

The following nematodes were found in airborne material:

Gottholdsteineria goodeyi in soil with plants in baggage from Ireland. Helicotylenchus erythrinae in soil with garlic in baggage from Ireland.

Helicotylenchus multicinctus in soil with roots of banana plants in baggage from Cuba.

Helicotylenchus nannus in soil on unknown roots in baggage from the Netherlands.

The oat nematode (Heterodera avenae) in soil with spruce seedlings in baggage

from Germany.

The golden nematode (Heterodera rostochiensis) in soil with cactus plant in baggage from Scotland; in soil with assorted plants in baggage from Ireland; in soil with potatoes in baggage from Ireland and Peru; and in soil with shamrock roots in cargo from Ireland.

Scutellonema brachyurum in soil with unidentified plants in baggage from Greece. Tylenchorhynchus acutus in soil with unknown plants in baggage from Cuba.

NOTES ON INSECTS INTERCEPTED

FRUIT FLIES

The following fruit flies were intercepted:

The Mexican fruit fly (Anastrepha ludens) in avocado in baggage from Mexico; in grapefruit in baggage and quarters from Mexico; in mamey sapote in baggage from Mexico; in mango in air baggage, baggage, and quarters from Mexico; in orange in air baggage and air stores from Guatemala; in orange in air baggage, baggage, cargo, quarters, and stores from Mexico; in peach in baggage from Mexico; in pomegranate in air baggage from Mexico; and in quince, sour orange,

and sweet lime in baggage from Mexico.

The West Indian fruit fly (Anastrepha mombin praeoptans) in guava in air baggage from Mexico; in Malay-apple in air baggage from Guatemala; in mango in air baggage from Central America (country(?)), Costa Rica, Cuba, Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Jamaica, Mexico, Nicaragua, Panama, and Puerto Rico; in mango in baggage from El Salvador, Haiti, Jamaica, Mexico, and Puerto Rico; in mango in aircargo from Cuba; in mango in airmail from Puerto Rico; in mango in quarters from Guatemala and Jamaica; in mango in stores from Costa Rica, Dominican Republic, Guatemala, Haiti, Jamaica, and Mexico; in purple mombin in air baggage from El Salvador, Guatemala, Honduras, and Nicaragua; in purple mombin in air quarters from Central America (country(?)); and in yellow mombin in air baggage from Honduras(?) and Nicaragua. A. mombin praeoptans(?) in yellow mombin in air baggage from Trinidad.

Anastrepha serpentina in Lucuma psammophila in mail from Brazil; and in mamey sapote in baggage from Mexico.

Anastrepha striata(?) in guava in baggage from Mexico.

The Mediterranean fruit fly (Ceratitis capitata) in cactus fruit in air baggage from Italy; in coffee in baggage from Hawaii; in fig in air baggage and baggage from Italy; in guava in air baggage from the Azores and Portugal; in lemon in baggage from Italy; in Mandarin orange in air baggage from Israel and Libya; in Mandarin orange in baggage from Italy; in Mandarin orange in mail from Tunisia; in Mandarin orange in stores from Italy; in mango in air baggage from Egypt; in olive in air baggage from Italy; in orange in air baggage from the Azores, Israel, and Italy; in orange in air quarters from the Azores; in orange in air stores from the Azores and Italy; in orange in quarters from Argentina and Italy; in orange in stores from Egypt, Israel, Italy, Lebanon, and Spain; in peach in air baggage from Italy and Tunisia; in peach in air stores from Italy; in pear in air baggage from Italy; in pear in air stores from France(?); in pear in baggage from Greece and Italy; in pear in stores from Greece, Italy, and Spain; in plum in air baggage from Italy; in pomegranate in air baggage and baggage from Italy; in pricklypear in baggage from Italy; in quince in air baggage from Italy; and in quince in baggage from Greece and Italy. C. capitata(?) in bell pepper in stores from Belgian Congo; in orange in air baggage from Brazil; in orange in air stores from Spain; in orange in stores from the Union of South Africa; and in sweet lime in air stores from the Azores.

The melon fly (Dacus cucurbitae) in balsam-pear in baggage from Hawaii; an adult and eggs on Momordica sp. in mail from Hawaii; and in string bean, tomato, and zucchini squash in stores from Hawaii. D. cucurbitae(?) in cucumber in

stores from Hawaii.

The oriental fruit fly (Dacus dorsalis) in avocado in preflight inspection of baggage leaving Hawaii for the mainland; in avocado in quarters from Hawaii; in banana in baggage from an unknown origin; in banana in quarters and stores from Hawaii; in bitter almond in preflight inspection of baggage leaving Hawaii for the mainland; in Calophyllum inophyllum in mail leaving Hawaii for the mainland; in immature coconut in baggage from Hawaii; in coffee in preflight inspection of baggage leaving Hawaii for the mainland; in Malay-apple in mail leaving Hawaii for the mainland; in mango in baggage and quarters from Hawaii; in mango and Passiflora sp. in preflight inspection of baggage leaving Hawaii for the mainland; in tomato in stores from Hawaii; and in vi-apple in preflight inspection of mail leaving Hawaii for the mainland. D. dorsalis(?) in bitter almond in mail leaving Hawaii for the mainland; in coffee in preflight inspection of baggage leaving Hawaii for the mainland; in coffee in mail leaving Hawaii for the mainland; and in pomegranate in preflight inspection of baggage leaving Hawaii for the mainland.

The olive fly (Dacus oleae) in olive in baggage from Italy and Spain and in air baggage and mail from Italy. D. oleae(?) in olives on tray of hors d'oeuvres in

air stores from an unknown origin.

Euleia heraclei(?) in celery in stores from Italy.

Rhagoletis cerasi in cherry in air baggage from Belgium, Germany, Italy, Spain, and Switzerland; in cherry in air quarters from France; in cherry in air stores from the Azores, France, Italy, Portugal, and an unknown origin; and in cherry inscargo from Italy.

Rhagoletis juglandis in black walnut in baggage from Mexico.

INSECTS OTHER THAN FRUIT FLIES

The following insects of unusual interest were intercepted:

Acrolepia assectella (Hyponomeutidae) in leek in stores from Belgium, France, Italy, and the Netherlands; and in turnip in stores from an unknown origin. Adoxophyes orana (Tortricidae) with lilac in aircargo from the Netherlands.

The citrus blackfly (Aleurocanthus woglumi) on citrus leaves in air baggage from Mexico and Nicaragua; and on citrus leaves in baggage and stores from Mexico.

Aleurotrachelus camelliae (Aleyrodidae) on camellia cuttings and leaves in mail

from Japan.

A curculionid, Anthonomus rectirostris, in black cherry in mail from Belgium. Apion carduorum (Curculionidae) in globe artichoke in air baggage from Italy. A noctuid, Barathra brassicae, in Chinese and petsai cabbage in stores from Japan.

Brachycerus albidentatus (Curculionidae) in garlic in cargo from Italy.
Bruchus tristis (Bruchidae) in bean and broadbean in baggage from Italy; in chickpea in baggage from Greece; in grass pea in mail from Italy; in legume seed

in air baggage from an unknown origin; and in lupine seed in baggage from Italy. A coccid, Ceroplastes rubens, on Alpinia purpurata leaf in preflight inspection of aircargo leaving Hawaii for the mainland; on anthurium leaf in mail leaving Hawaii for the mainland; on camellia plants in baggage from Japan; on camellia plant in mail from Formosa; on cotoneaster plant and English ivy in air baggage from Japan; on finetooth holly in cargo from Japan; on gardenia in air baggage from Japan; on gardenia and maile in preflight inspection of air baggage leaving Hawaii for the mainland; on maile in mail leaving Hawaii for the mainland; on Metrosideros collina in preflight inspection of air baggage leaving Hawaii for the mainland; and on rhododendron in baggage from Japan.

The Asiatic rice borer (Chilo suppressalis) in rice straw in air baggage from Portugal(?); in rice straw in baggage from Korea; and in rice straw in baggage,

cargo, and stores from Japan.

Conotrachelus aguacatae (Curculionidae) in avocado in baggage and quarters

from Mexico.

Curculio elephas (Curculionidae) in chestnut in air baggage from Greece, Italy, and Portugal; in chestnut in baggage from Greece, Italy, Portugal, and Spain; in chestnut in cargo from Italy; in chestnut in mail from Italy; in chestnut in quarters from Turkey; in chestnut in stores from France, Italy, and Portugal; in European oak in cargo from Italy; in holly oak in mail from Italy; and in acorn in baggage from Italy.

A curculionid, Cylas formicarius formicarius, in sweetpotato in aircargo from the Philippines and Thailand; in sweetpotato in cargo from Hong Kong and Thailand; in sweetpotato in quarters from an unknown origin; and in sweetpotato

in stores from India, Philippines, and Singapore.

Cylas puncticollis (Curculionidae) in sweetpotato in stores from Nigeria and

Sierra Leone.

An aleyrodid, Dialeurodes kirkaldyi, on Arabian jasmine in preflight inspection of baggage leaving Hawaii for the mainland; on Arabian jasmine in baggage from the Philippines; on gardenia in baggage from Hawaii; and on star jasmine in preflight inspection of baggage leaving Hawaii for the mainland.

Diaprepes abbreviatus (Curculionidae) on Pothos sp. in aircargo from Puerto

Rico.

A pyraustid, Dichocrocis punctiferalis, in peach in quarters from Japan.

Dyspessa ulula (Cossidae) in garlic in cargo from Italy and Spain; and in garlic in stores from Spain.

Epichorista ionephela (Tortricidae) with chinkerichee in baggage, cargo, and mail from the Union of South Africa.

An olethreutid, Gymnandrosoma aurantianum, in grapefruit in stores from Mexico.

Lampides boeticus (Lycaenidae) in leis made of Canavalia sp. in preflight inspec-

tion of baggage leaving Hawaii for the mainland.

An olethreutid, Laspeyresia splendana, in chestnut in air baggage from Italy and Portugal; in chestnut in baggage from the Azores, France, Greece, Italy, Philippines, Portugal, and Spain; in chestnut in cargo from Italy; and in chestnut in stores from France.

Leucinodes orbonalis (Pyraustidae) in eggplant in stores from Nigeria. Lobesia botrana(?) (Olethreutidae) in grape in baggage from Italy.

Malacosoma neustria (Lasiocampidae) in cherry cuttings in air baggage from Japan.

A phalaenid, *Mamestra brassicae*, in cabbage in stores from Belgium.

A bean pod borer, Maruca testulalis, in leis made of Canavalia sp. in preflight inspection of baggage leaving Hawaii for the mainland; in civet bean in stores from Hawaii; in pea in air mail from Puerto Rico; in pigeonpea in cargo leaving Puerto Rico for the mainland; in string bean in preflight inspection of baggage leaving Puerto Rico for the mainland; in string bean in cargo and airmail from Puerto Rico; and in string bean in stores from Brazil, Ghana, and Japan.

An olethreutid, Olethreutes leucotreta, in grapefruit in stores and in orange in air

quarters from the Union of South Africa.

Prays endocarpa (Hyponomeutidae) in pummelo in stores from the Federation of Malaya.

Prays oleelus (Hyponomeutidae) on olive leaf in air baggage from Italy.

A chrysomelid, Psylliodes chrysocephala, in turnip in stores from France.

Stephanoderes hampei (Scolytidae) in coffee in cargo from Brazil; and in coffee in stores from Egypt and India.

A mango weevil, Sternochetus mangiferae, in mango in air baggage from Australia; in mango in preflight inspection of baggage leaving Hawaii for the mainlana; in mango in airmail from Guam, Philippines, and Vietnam; in mango in air quarters from Eniwetok(?); in mango in air stores from Vietnam; in mango in baggage from Hawaii and the Philippines; in mango in mail leaving Hawaii for the mainland; and in mango in quarters and stores from Hawaii. The khapra beetle (Trogoderma granarium) with almond shells and cashew nuts in mail from India; with used bagging in cargo from the Netherlands; with dried beans in stores from the Netherlands; in flour in stores from England, Italy, Netherlands, and the Union of South Africa; with dried peaches in stores from an unknown origin; with peanuts in airmail from Portugal; with rice in stores from Brazil, China, Formosa, and an unknown origin; on old rice bags in stores from India; and in wheat bran in baggage from Mexico.

The giant African snail (Achatina fulica) was intercepted twice with military cargo from Morocco.

Porphyrobaphe iostoma, not in the United States and not injurious under normal

conditions, was intercepted six times with bananas in cargo from Ecuador.

Theba pisana, an injurious snail not known to be established in the United States, was intercepted 33 times; 28 of these came in military cargo in aircargo and cargo from Morocco; once in military cargo in aircargo from Libya; once in general cargo from the Mediterranean region; once each on conex boxes in cargo from Morocco and Spain; and once on parsley in stores from Spain.

Other snails of economic importance, but of limited distribution in the United States, intercepted and worthy of mention were: Arion circumscriptus, Bradybaena similaris, Cepaea nemoralis, Deroceras reticulatum, Limax marginatus, L. maximus, Milax gagates(?), Oxychilus allarius, Vallonia pulchella, and Zonitoides arboreus.

NOTES ON DISEASES INTERCEPTED

The sweet orange scab (Elsinoe australis) was intercepted 51 times; 8 of these interceptions came from Argentina on lemon and orange; 39 from Brazil on grapefruit, lemon, Mandarin orange, and orange; and 4 were of unknown origin

on lemon, orange, and sour lime.

Citrus canker (Xanthomonas citri) was intercepted 79 times; 68 of these came from Japan, 3 each from Hong Kong and India, 2 from China, and 1 each from the Federation of Malaya, Pakistan, and Singapore. These interceptions were made from the following hosts: Citrus sp., grapefruit, lemon, lime, Mandarin orange, orange, pummelo, sour lime, and sour orange.

Cancrosis B (Xanthomonas sp.), another bacterial disease of citrus, producing

symptoms similar to citrus canker, was intercepted four times from Argentina

on lemon and grapefruit.

The black spot of citrus (Phoma citricarpa) was intercepted 165 times; 45 of these came from Hong Kong, 33 from the Union of South Africa, 25 from Japan, 21 from China, 16 from Australia, 14 of unknown origin, 2 each from the Federation of Malaya, Formosa, Philippines, and Singapore, and 1 each from Africa (country(?)), Brazil, and Thailand. These interceptions were made on the following hosts: Citrus sp., grapefruit, lemon, Mandarin orange, orange, Satsuma orange, sour lime, and sour orange.

Other interceptions were:

Chrysomyxa ledi var. rhododendri on rhododendron in air baggage, airmail, cargo, and mail from Switzerland; in airmail from Austria; and in baggage from Canada and Germany.

Griphosphaeria corticola on rose canes in aircargo from Germany.

Tilletia contraversa on rye seed in mail from Afghanistan.

Urocystis gladiolicola on gladiolus corms in cargo from the Netherlands. "Yellow spot" virus on camellia leaves in air baggage from the Netherlands.

NEMATODES

The oat nematode (Heterodera avenae) was intercepted 18 times from the following countries: Czechoslovakia, England, Europe (country(?,), Germany, Israel, Italy, and Spain. These interceptions were taken in soil with the following: Automobiles, carnation, cypress, and juniper plants, dahlia roots, garlic, onions, Ornithogalum saundersiae, potatoes, primrose plant, spruce seedlings, and unknown plants.

The golden nematode (*Heterodera rostochiensis*) was intercepted 48 times from the following countries: Argentina, Denmark, England, Germany, Ireland, Malta, Mexico, Peru, Scotland, and Sweden. These interceptions were taken in soil from new and used automobiles and in soil with bulbs, plant material, and vegetables.

Other nematodes of special interest were:

Gottholdsteineria goodeyi in soil with unknown plants in air baggage from

Helicotylenchus erythrinae in soil with garlic in air baggage from Ireland and in

soil with unknown plants in baggage from Mexico.

Helicotylenchus multicinctus in soil with roots of banana plants in air baggage

from Cuba.

Helicotylenchus nannus in soil with begonia, carnation, coleus, mint, and unknown plants and unknown herbs in baggage from Mexico; and in soil with unknown roots in air baggage from the Netherlands.

Psilenchus hilarulus with bougainvillea, hibiscus, cactus, coleus, fern, and

herbaceous plants in baggage from Mexico.

Scutellonema christiei in soil with caladium plants, palm, and an unknown plant in baggage from Trinidad.

Tylenchorhynchus acutus in soil with coleus plant in baggage from Mexico; and in soil with unknown plants in air baggage from Cuba.

Tylenchorhynchus capitatus in soil with succulent and unknown plants in

baggage from Mexico.

Tylenchorhynchus martini in soil with boraginaceous and India rubbertree plants in baggage from Mexico.

Tylenchulus semipenetrans with Citrus sp. tree in baggage from Italy.

Tylenchus davainei in soil and moss in mail from Germany.

Tylenchus polyhypnus with bougainvillea and hibiscus plants in baggage from

The genus Meloidogyne continues to represent a pest problem. During the year various plant shipments and vegetables have been found infected with one or more of the following species: Meloidogyne arenaria, M. hapla, M. incognita, M. incognita acrita, and M. javanica. They were intercepted from the following countries: Argentina, Australia, Bermuda, Brazil, Canada, Canal Zone, Colombia, Cuba, Egypt, England, Fiji Islands, France, French West Africa, Germany, Guatemala, Hawaii, India, Israel, Italy, Jamaica, Japan, Kenya, Mexico, Netherlands, New Guinea, Peru, Puerto Rico, Singapore, Trinidad, Union of South Africa, and West Africa.

INCOMPLETELY DETERMINED PESTS

Frequently complete determinations as to species are impossible or impracticable due to the stage or condition of the insects or pathogens on arrival. Some of these pests may be of economic importance, hitherto unreported from the United States, unknown for the host plant, or they may come from a new country of origin. As a matter of record they are included in this separate list but not in the table form.

INSECTS

Among the incompletely determined insects were the following fruit flies: Anastrepha sp., possibly fraterculus, at Charleston, S.C., in orange in stores from Brazil; and at Miami, Fla., in cherimoya in air baggage from Peru.

Anastrepha sp., probably ludens, at El Paso and Laredo, Tex., in orange in baggage from Mexico; at Nogales, Ariz., in mango in baggage from Mexico; at Progreso, Tex., in pear in baggage from Mexico; and at San Ysidro, Calif.,

in mango in baggage from Mexico.

Anastrepha sp., probably mombin praeoptans, at Brownsville, Tex., in mango in air baggage from El Salvador and Nicaragua; in purple mombin in air baggage from Guatemala and Nicaragua; and in *Psidium* sp. (wild guava) in baggage from El Salvador; at Charleston, S.C., in mango in air baggage from Panama; at Jacksonville, Fla., in mango in stores from Panama; at Miami, Fla., in mango in air baggage from Colombia and Panama; and in Mandarin orange in air stores from Peru; at Mobile, Ala., in mango in quarters from Trinidad; at New Orleans, La., in guava in air baggage from Guatemala; in mango in baggage and quarters from Ecuador; and in purple mombin in air baggage from Central America (country(?)) and Guatemala; and at San Juan, P.R., in mango in air baggage from Barbados.

Anastrepha sp., probably serpentina, at Brownsville, Tex., in mamey sapote in air baggage from Guatemala; and in sapodilla in air baggage from El Salvador;

and at Laredo, Tex., in mamey in baggage from Mexico.

Anastrepha sp., probably striata, at Brownsville, Tex., in guava in air baggage from Costa Rica, El Salvador, and Nicaragua; and in guava in baggage from Mexico; at Calexico, Calif., in guava in baggage from Mexico; at Laredo, Tex., in guava in baggage from Mexico; at Miami, Fla., in mango in air baggage from Panama; and at Nogales, Ariz., in guava in baggage and cargo from Mexico.

Anastrepha sp., possibly suspensa (Loew), at Chicago, Ill., in guava in airmail from Puerto Rico; at Miami, Fla., in custard-apple in air baggage from the

Dominican Republic; and in guava in air baggage from Cuba.

Anastrepha sp., at Baltimore, Md., in grapefruit in stores from Trinidad; and in orange in stores from Brazil and Colombia; at Baton Rouge, La., in orange in stores from Brazil; at Boston, Mass., in grapefruit, orange, and plum in stores from Brazil; at Brownsville, Tex., in guava in air baggage from El Salvador; in Malay-apple in air baggage from Costa Rica; in mango in air baggage from El Salvador, Guatemala, and Panama; and in sapote in quarters from Mexico; at Chicago, Ill., in guava in airmail from Puerto Rico; at Del Rio, Tex., in mango in baggage from Mexico; at El Paso, Tex., in guava and mango in baggage from Mexico; at Galveston, Tex., in mango in quarters from Jamaica; at Hidalgo, Tex., in orange in cargo from Mexico; at Houston, Tex., in orange in stores from Peru; and in Japanese plum in stores from Argentina; at Jacksonville, Fla., in grapefruit in stores from Brazil; at Laredo, Tex., in mamey sapote, mango, and pear in baggage from Mexico; at Miami, Fla., in bullock's-heart in air baggage from Ecuador; in Cereus sp. in air baggage from Colombia; in cherimoya in air baggage from Ecuador; in coffee berries in air baggage from Brazil, Colombia, and Costa Rica; in custard-apple in air baggage from Peru; in grapefruit in air baggage from Colombia; in guava in air baggage from Costa Rica and Cuba; in Mandarin orange in air stores from an unknown origin; in mango in air baggage from Chile, Colombia, El Salvador, and Peru; in orange in air baggage from Colombia; in orange in air stores from Brazil; in pomegranate in air baggage from Argentina; in purple mombin in cargo from Costa Rica; and in Ximenia americana in air baggage from Colombia and Nicaragua; at New Orleans, La., in orange in stores from Mexico; in purple mombin in air baggage from Guatemala; in star-apple in air baggage from Mexico; and in tropical almond in air baggage from Venezuela; at New York, N.Y., in mango in air baggage from Jamaica; in orange in air stores from an unknown origin; in sapodilla in air quarters from Venezuela; and in Spondias sp. in baggage from Venezuela; at Nogales, Ariz., in guava, mango, Myrtus ehrenbergii, and orange in baggage from Mexico; at Philadelphia, Pa., in orange in stores from Brazil; at San Juan, P.R., in coffee berries in air baggage from Brazil; in grape-fruit in baggage from Trinidad; and in Spondias sp. in air baggage from Venezuela; at San Pedro, Calif., in guava in air baggage from Nicaragua; at San Ysidro, Calif., in mango in baggage from Mexico; at Tampa, Fla., in mango in quarters from Cuba; and in orange in stores from Argentina; and at Washington, D.C., in Psidium sp. in express from Brazil.

Dacus sp., possibly passiflorae Frogg., at Honolulu, Hawaii, in Tahiti-chestnut

in air baggage from the Fiji Islands.

Dacus sp., perhaps psidii (Frogg.), at Honolulu, Hawaii, in Tahiti-chestnut in

air baggage from American Samoa.

Dacus sp. at Boston, Mass., in cucumber and squash in stores from French West Africa; at Honolulu, Hawaii, in coffee berry in preflight inspection of air baggage leaving Hawaii for the mainland; and in peach in baggage from Australia; and at New York, N.Y., in Citrus sp., probably reticulata, in air baggage from Pakistan.

Rhagoletis sp., probably cerasi, at Boston, Mass., in cherry in air stores from an

Rhagoletis sp. at Brownsville, Tex., in apple in baggage from Mexico; and in Crataegus sp. in baggage from Mexico; at Del Rio and Eagle Pass, Tex., in apple in baggage from Mexico; at El Paso, Tex., in Crataegus sp. in baggage from Mexico; at Galveston, Tex., in apple in stores from Mexico; at Laredo, Tex., in apple in baggage from Mexico; at New York, N.Y., in apple in stores from Mexico; at Nogales, Ariz., in apple and *Crataegus* sp. in baggage from Mexico; and at San Antonio, Tex., in apple in air baggage from Mexico.

Thirty interceptions identified to family only, Tephritidae, were intercepted at the following ports: Baltimore, Md., in mango in stores from India; at Baton Rouge, La., in orange in stores from an unknown origin; at Boston, Mass., in cucumber in stores from French West Africa; in guava in air baggage from the Azores; and with mixed cut flowers in air baggage from France; at Brownsville, Tex., in apple in baggage from Mexico; and in mango in air baggage from Nicaragua; at Hoboken, N.J., in franchet cotoneaster in mail from Italy; and in palm fruit in mail from Borneo; at Honolulu, Hawaii, in coffee berry, guava, and vi-apple in preflight inspection of baggage leaving Hawaii for the mainland; at Jacksonville, Fla., in courbaril seed and seed of Enterolobium cyclocarpum in baggage from Panama; at Laredo, Tex., in pecan husk in baggage from Mexico; at Miami, Fla., in chayote in air baggage from Brazil; and in quince in air stores from Peru; at New Orleans, La., in sour orange in stores from Colombia; at New York, N.Y., in cucurbit in air stores from an unknown origin; in cotton boll in baggage from Greece; and in pricklypear in baggage from Italy; at Nogales, Ariz., pupa with yucca plant in cargo from Mexico; at San Antonio, Tex., in Mandarin orange in air baggage from Mexico; at San Francisco, Calif., in cucumber in stores from Hawaii; and in mango in baggage from Hawaii; and at Washington, D.C., in Solanum etuberosum fruit in mail from Chile.

An adult of Tephritis sp. at New York, N.Y., in hay packing in baggage from

Norway.

Other incompletely determined insects worthy of mention were:

An aleyrodid, Aleurodicinae, new genus near Aleurodicus, at Laredo, Tex., on orchid leaf in cargo from Mexico; and at Nogales, Ariz., on orchid leaf in cargo

Allocorhynus sp. (Curculionidae), a very interesting group, apparently confined to cycads, at Brownsville, Tex., in Dion edule in cargo from Mexico.

Alydus sp. (Coreidae), new to the National Museum collection, at Charlotte

Amalie, St. Thomas, with cabbage in baggage from Tortola.

Anchonini (Curculionidae), near Anchonus, a very interesting weevil, not in the National Museum collection, at New York, N.Y., with ginger in cargo from Cuba. Andrector sp., probably salvini (Baly) (Chrysomelidae), at New York, N.Y., with peas in aircargo from Venezuela.

Andrector sp., probably variabilis Jac. (Chrysomelidae), at San Pedro, Calif., on

an orchid plant in mail from the Canal Zone.

Archips sp. (Tortricidae) at Boston, Mass., with canna plants in baggage from

Italy.

Aspidiotus sp. (Coccidae), not placed as a described species, was intercepted eight times at six different ports on fruits and plant material from the following countries: Brazil, China, Ecuador, Ghana, and Mexico.

Asterolecanium sp. (Aleyrodidae), apparently undescribed, at Miami, Fla., on palm leaf in airmail from the Canal Zone.

Aulacaspis sp. (Coccidae), an undescribed species, at Hoboken, N.J., on pseudobulb of Coelogyne sp. in cargo from India.

Baris sp. (Curculionidae) at Baltimore, Md., in horseradish in cargo from Ger-

many; and at New York, N.Y., in horseradish in cargo from Poland.

Batrachedra sp. (Cosmopterygidae), probably a new species, at Brownsville, Tex., with Yucca sp. cuttings in baggage from Mexico; and at San Ysidro, Calif., with agave cuttings in baggage from Mexico.

Brachyrhinus sp. (Curculionidae) at New York, N.Y., in soil with primrose

plants in baggage from Belgium.

Bruchus sp. (Bruchidae), apparently new to the National Museum collection, at Boston, Mass., in Lathyrus sp. seed in air baggage from the Azores.

Bryobia sp. (Tetranychioae), apparently a new species, at Seattle, Wash., on

chrysanthemum in quarters from Japan.

Carposinia sp. (Carposinidae) at Hoboken, N.J., in kobus magnolia seed in cargo from Japan; and at New York, N.Y., in unknown berries in baggage from Greece. Crioceris sp. (Chrysomelidae) at Chicago, Ill., on asparagus fern in air baggage from Germany; and on asparagus fern in air quarters from England.

Diaprepes sp. (Curculionidae) at New York, N.Y., in yam in baggage from

Jamaica; and at San Juan, P.R., in cargo leaving for the mainland.

Epicaerus sp. (Curculionidae) was intercepted 18 times at 9 different ports in potatoes in baggage and stores from Mexico.

An eriophyid mite, apparently undescribed genus and species, at Boston, Mass., on a beech cutting in air baggage from England.

"Eulia" sp. (Tortricidae) at New York, N.Y., in grape, nectarine, peach, and

plum in cargo from Chile.

Gnorimoschema sp. (Gelechiidae), probably a new species and not any of the species heretofore associated with potato, at Mobile, Ala., in potato in stores from Honduras.

Gymnandrosoma sp. (Olethreutidae) at New Orleans, La., in genip in air baggage from Guatemala and in orange in quarters from Brazil; at Miami, Fla., in guava in air baggage from Cuba and in mangrove plant in air baggage from Grand Cayman; at Nogales, Ariz., in Byrsonima crassifolia in baggage from Mexico; and in guava in preflight inspection of baggage leaving San Juan, P.R., for the mainland.

Lepidosaphes sp. (Coccidae), not known to occur in the United States, at Wash-

ington, D.C., on Angraecum compactum in mail from England.

Leptinotarsa sp. (Chrysomelidae), new to the National Museum collection, at Brownsville, Tex., on banana in cargo from Mexico.

Ligyrocoris sp. (Lygaeidae), very unusual and not in the National Museum

collection, at New Orleans, La., on banana in cargo from Ecuador.

Lixus sp. (Curculionidae) at Baltimore, Md., in beet in cargo from Algeria; at New Orleans, La., in beet in stores from England; and at Philadelphia, Pa., in beet in stores from Egypt and in celery in stores from Morocco.

Myrmex sp. (Curculionidae) at Honolulu, Hawaii, on Epidendrum stenopetalum

stem in airmail from the Canal Zone.

Palaeopus sp. (Curculionidae) at New Orleans, La., in yam in air baggage from Jamaica; and at New York, N.Y., in yam in air baggage from Jamaica.

Premnotrypes sp. (Curculionidae) at Galveston, Tex., in potato in stores from Ecuador; at New Orleans, La., in potato in stores from Peru; and at New York,

N.Y., in Solanum sp. tuber in baggage from Peru.

Pseudococcus sp. (Coccidae), not placed as a described species, was intercepted 32 times at 9 different ports on various plant material from the following countries: Azores, Brazil, Canal Zone, Costa Rica, Cuba, England, France, Guatemala, Indonesia, Jamaica, Marshall Islands, Mexico, Monaco, Panama, and Philippines. Spermophagus sp. (Bruchidae) at Houston, Tex., with Ipomoea pes-caprae seed

in air baggage from Liberia.

DISEASES

Incompletely determined pathogens worthy of mention were:

Asterina sp., apparently undescribed, at San Francisco, Calif., on Banksia ericifolia in aircargo from Australia.

Cercospora sp. at San Juan, P.R., on Wedelia trilobata leaf in air baggage from

British Guiana.

Colletotrichum sp. at Brownsville, Tex., on Reinhardtia sp. leaf in cargo from Mexico.

Cytospora sp. at San Francisco, Calif., and Seattle, Wash., on tree peonies in cargo from Japan.

Guignardia sp. at New Orleans, La., on tropical almond leaf in air baggage from Cuba.

Helminthosporium sp. at Miami, Fla., on Epidendrum stenopetalum leaf in aircargo from Panama.

Hendersonia sp. at Nogales, Ariz., on Calocarpum sp. and sapote in baggage from Mexico.

Leptosphaeria sp., probably undescribed, at Miami, Fla., on bromeliad leaf in aircargo from the Canal Zone.

Monochaetia sp.(?) at Nogales, Ariz., on Lucuma sp. in baggage from Mexico. Phomopsis sp., probably the "A" spores, at Washington, D.C., on bougainvillea plant in mail from Portugal; Phomopsis sp., apparently undescribed, at San Pedro, Calif., on Persea sp. in air baggage from Guatemala.

Phyllostictina sp. at New Orleans, La., on tropical almond leaf in air baggage

from Cuba.

Puccinia sp., apparently undescribed, at Miami, Fla., on Oncidium sp. leaf in aircargo from Ecuador; Puccinia sp. at Miami, Fla., on Oncidium sp. leaf in air

baggage from Mexico.

Septoria sp. at New Orleans, La., on anthurium flower petal in quarters from Trinidad(?); at Houston, Tex., on lily in air baggage from Mexico; and at Washington, D.C., on *Quaresmeira roxa* in air express from Brazil.

NEMATODES

Aphelenchoides sp. at Boston, Mass., with Chinese vegetables in cargo from Hong Kong; with unknown greens in air stores from Italy; with unknown plants, in soil with gladiolus corms, and in soil with unknown bulbs and roots in air baggage from the Azores; in unknown roots in air baggage from England; and in soil with parsnips and turnips in stores from the Canary Islands; at Brownsville, Tex., in Hypochoeris sp. in air baggage from Argentina; at El Paso, Tex., in soil with amaryllis bulbs, hydrangea, and various plants in baggage from Mexico; at Hoboken, N.J., in colchicum corms in cargo from the Netherlands; and in primrose seed in mail from England; at Laredo, Tex., in chrysanthemum roots in baggage from Mexico; at New Orleans, La., in garlic in transiting cargo from Mexico; at New York, N.Y., in Dicentra sp. and Trollius sp. roots in aircargo from the Netherlands; at Nogales, Ariz., in soil with bougainvillea and assorted unknown plants in baggage from Mexico; and at Norfolk, Va., in soil with palm plants in baggage from Trinidad.

Aphelenchus sp. at Baltimore, Md., in soil with leeks in stores from Denmark; at Boston, Mass., in soil with bulbs, roots, and unknown plants in air baggage from the Azores; at Brownsville, Tex., in lily roots in baggage from Mexico; at Calexico, Calif., in Euphorbia sp. roots in baggage from Mexico; at El Paso, Tex., in soil with amaryllis bulbs and Gasteria sp. in baggage from Mexico; at Hoboken, N.J., in dahlia roots in mail from Germany; at Laredo, Tex., in chrysanthemum roots in baggage from Mexico; at Miami, Fla., in soil on roots of banana in air baggage from Cuba; and in soil on roots of unknown plant in air baggage from Argentina; at Nogales, Ariz., in soil with coleus and unknown plants in baggage from Mexico; and at Norfolk, Va., in soil with caladium plant in baggage from

Trinidad.

Criconema sp. at Laredo, Tex., in soil with an unknown plant in baggage from Mexico; and at Seattle, Wash., in soil with a dwarf sweet lime tree in baggage from Japan.

Criconemoides sp. at Laredo, Tex., in soil with mango seedling in baggage from Mexico; at Miami, Fla., in soil on cactus roots in air baggage from Chile; and at

New Orleans, La., in soil with mint roots in air bagage from Honduras.

Ditylenchus sp. at Boston, Mass., in dasheens in stores from Cuba; at Brownsville, Tex., in soil with Chamaedorea sp. plants in baggage from Mexico; at Calexico, Calif., in garlic in baggage from Mexico; at Hoboken, N.J., in colchicum corms in cargo from the Netherlands; and in hop roots in airmail from Germany; and at New Orleans, La., in garlic in cargo from Mexico.

and at New Orleans, La., in garlic in cargo from Mexico.

Gottholdsteineria sp. at Boston, Mass., in garlic in stores from France; at Eagle
Pass, Tex., in unknown plant in baggage from Mexico; and at Laredo, Tex., in

soil with dahlia roots in mail from Germany.

Helicotylenchus sp. at Boston, Mass., in soil with callas, citrus, Mesembryanthemum sp., miscellaneous plants, and sedum in air baggage from the Azores; in soil with grape and oleander cuttings in air baggage from Italy; in soil with ivy plants in air baggage from Germany; in soil with petrea flat wood in air baggage from the Union of South Africa; and in soil with spruce tree in baggage from Canada; at Brownsville, Tex., with bougainvillea and royal poinciana plants in baggage from Mexico; in soil with Chamaedorea sp. plants in air baggage from Nicaragua; at Eagle Pass, Tex., with unknown plant in baggage from Mexico; at El Paso, Tex., with peperomia plant in baggage from Mexico; at Laredo, Tex., in lemon grass roots, in soil for analysis, and in soil with begonia, gardenia, and succulent plants, and roots of unknown plants in baggage from Mexico; in soil with dracaena plants in express from Cuba; and with unknown plants in baggage and cargo from Mexico; at Miami, Fla., in soil on banana roots and roots of miscellaneous plants in air baggage from Cuba; in soil near roots of coffee plants in air baggage from Guatemala; in soil with fern roots in airmail from Bolivia; and in soil near roots of Pilea sp. in air baggage from Peru; at New Orleans, La., in soil with mint roots in air baggage from Honduras; at Nogales, Ariz., in soil with lily bulbs in baggage from Mexico; at Presidio, Tex., in soil with cactus and portulaca plants in baggage from Mexico; at San Juan, P.R., in soil with philodendron plants in air baggage from Puerto Rico; and at Washington, D.C., in soil with olive trees in mail from Italy.

Hemicycliophora sp. at Nogales, Ariz., in soil with lily bulbs in baggage from

Heterodera sp., possibly trifolii (Goffart) Oostenbrink, at San Pedro, Calif., in soil with shamrock roots in aircargo from Ireland.

Other members of the genus *Heterodera* were intercepted 208 times at 26 ports from the following countries: Argentina, Austria, Azores, Belgium, Cape Verde Islands, Chile, Denmark, Egypt, England, France, Germany, Iceland, Ireland, Italy, Japan, Korea, Malta, Mexico, Morocco, Netherlands, New Zealand, Northern Ireland, Norway, Poland, Scotland, Spain, Sweden, Switzerland, and Turkey. These interceptions were made from soil samples, sand ballast, and soil with the following: New and used automobiles, army equipment, bark, cereal straw jackets, conex boxes, flower bulbs, roots, and tubers, gladiolus corms, lily-of-the-valley pips, old bagging, plants, on shoes, and vegetables.

Hoplolaimus, new species, at Laredo, Tex., in soil with philodendron plants in

baggage from Mexico.

Hoplolaimus sp. at Boston, Mass., with unknown plants and in soil with arborvitae plants in air baggage from the Azores.

Meloidogyne sp. probably new species closely related to brevicauda Loos, at New

York, N.Y., with yams in baggage from Nigeria.

Meloidogyne sp. at Boston, Mass., in dasheens in air baggage from the Azores and Portugal and in stores from Cuba; at Hoboken, N.J., in Achimenes sp. tubers in mail from India; in calla lily tubers in cargo from Italy; in astilbe roots in cargo from the Netherlands; in clematis roots in mail from England and in cargo from the Netherlands; in Curcuma roscoeana and C. zedaria tubers in mail from the Netherlands; in Kaempferia spp. tubers in cargo and mail from India and the Netherlands; in Japanese iris roots in cargo from Japan; in peony roots in cargo from the Netherlands and in mail from England; in Reichsteineria macropoda roots in cargo from the Netherlands; and in Thomsonia nepalensis tubers and in tuberose in mail from India; at Laredo, Tex., in begonia tubers, coriander roots, and ivy roots in baggage from Mexico; at Miami, Fla., in soil with Aphelandra sp. roots in aircargo from the Netherlands; in soil with cactus roots in air baggage from Chile; and in soil with Pittosporum sp. roots in aircargo from the Netherlands; at New Orleans, La., in potatoes in stores from Italy and Japan; at New York, N.Y., in Achimenes sp. tubers in aircargo from India; and in gladiolus corms in cargo from Japan; at Nogales, Ariz., in soil with unknown plants in baggage from Mexico; at San Diego, Calif., in yam in stores from Japan; and at San Pedro, Calif., in dahlia roots in cargo from Japan.

Pratylenchus sp. at Boston, Mass., in soil with dasheens in air baggage from Portugal; at Douglas, Ariz., in soil sample in air baggage from Mexico; at El Paso, Tex., in soil with mint plants in baggage from Mexico; at Hoboken, N.J., in clematis roots in cargo from the Netherlands and in mail from England; in fortune plantainlily roots in cargo from the Netherlands; in iris roots in mail from England and the Netherlands and in cargo from Japan; in Ligularia clivorum roots in mail from England; and in roots of Physostegia sp., western bleedingheart, and yucca in cargo from the Netherlands; at Laredo, Tex., in chrysanthemum roots in baggage from Mexico; at New York, N.Y., in Kamchatka bugbane roots in aircargo from the Netherlands; at Nogales, Ariz., in soil with lily bulbs in baggage from Mexico; and at San Francisco, Calif., in lily-of-the-valley pips in

cargo from Denmark.

Psilenchus sp. at El Paso, Tex., in soil with plants in baggage from Mexico; and at Nogales, Ariz., in soil with caladium tubers in baggage from Mexico.

Radopholus sp., near gracilis (de Man) Hirschmann, at Boston, Mass., in water-

chestnuts in cargo from Hong Kong.

Radopholus sp. at Boston, Mass., in unknown roots in stores from Egypt.

Rotylenchulus sp. at Norfolk, Va., in soil with palm plants in baggage from Trinidad.

Rotylenchus sp. at Boston, Mass., in soil with Arctostaphylos sp. plant in baggage from Ireland; in soil with narcissus bulbs in aircargo and in soil with petrea flat wood in air baggage from the Union of South Africa; and in soil with tulip bulbs in mail from Germany; at Hoboken, N.J., in Cladrastis sp. roots in cargo from the Netherlands; at Laredo, Tex., in sansevieria roots in cargo from Mexico; and at Miami, Fla., in soil near roots of Pilea sp. in air baggage from Peru.

Scutellonema sp., near bradys, at Boston, Mass., in soil with begonia(?) plant

in quarters from Belgian Congo.

Scutellonema sp. at Laredo, Tex., in soil with gardenia plants in baggage from Mexico; and at Nogales, Ariz., in soil with amaryllis bulbs in baggage from Mexico.

Tylenchorhynchus sp. at Baltimore, Md., in soil with leeks in stores from Denmark and the Netherlands; at Boston, Mass., with unknown flowering plants in air baggage from Greece; at Brownsville, Tex., with Chamaedorea sp. plants, Pilea sp. plants, and royal poinciana in baggage from Mexico; at Nogales, Ariz., in soil with bromeliad plants in baggage from Mexico; at Washington, D.C., in soil with olive trees in mail from Italy; and at Ysleta, Tex., in soil with portulaca

plants in baggage from Mexico.

Tylenchus sp. at Boston, Mass., in soil with fern asparagus and "Spider" plant in air baggage from Germany; in soil with heather in air baggage from Scotland; and in soil with oleander plant in air baggage from Italy; at Brownsville, Tex., with bougainvillea plant in baggage from Mexico; at Douglas, Ariz., in soil sample in air baggage from Mexico; at El Paso, Tex., in soil with poinsettia and unknown plants in baggage from Mexico; at Laredo, Tex., with begonia tuber in baggage from Mexico; at Miami, Fla., in soil on roots of anthurium in air baggage from Colombia; in soil with roots of Aphelandra sp. in aircargo from the Netherlands; in soil on cactus roots in air baggage from Chile; and in soil on unknown plant roots in air baggage from Argentina; at Nogales, Ariz., in soil with bean plants, bromeliad plants, lily bulbs, and an unknown plant in baggage from Mexico; at Norfolk, Va., in rice straw rug in cargo from Japan; and in soil with palm plants in baggage from Trinidad; at San Antonio, Tex., in soil with wandering-jew plant in air baggage from Mexico; and at Ysleta, Tex., in soil with portulaca plant in baggage from Mexico.

Xiphinema sp. at Laredo, Tex., with lily bulbs and in soil around roots of royal poinciana plant in baggage from Mexico; and at Nogales, Ariz., in soil with an

unknown plant in baggage from Mexico.

Hosts and Insects

ABIES:

Blastophagus piniperda (Coleoptera) Chermes piceae (Homoptera)

ACACIA:

Mimosestes sallaei (Coleoptera) Stator pruininus (Coleoptera)

ACALYPHA:

Tetranychus cucurbitae (Aearina)

ACER:

Aceria macrochelus (Acarina) Hypera punctata (Coleoptera) Lecanium coryli (Homoptera) Pulrinaria vitis (Homoptera)

ADENANTHERA:

Ectomyelois ceratoniae (Lepidoptera)

AGARICUS:

Trogoderma parabile (Coleoptera)

AGAVE:

Batrachedra linaria (Lepidoptera) Gymnococcus açavium (Homoptera) Lepidosaphes philococcus (Homoptera) Ozophora consanguineus (Hemiptera) Pseudischnaspis bowreyi (Homoptera)

ALLIUM CEPA:

Lygaeus albo-ornatus (Hemiptera)

ALLIUM PORRUM:

Acrolepia assectella (Lepidoptera) Deroceras reticulatum (Mollusca)

ALLIUM SATIVUM:

Aceria tulipae (Acarina)
Brachycerus albidentatus (Coleoptera)
Brachycerus algirus (Coleoptera)
Deloyala guttata (Coleoptera)
Dyspressa ulula (Lepidoptera)
Frankliniella tenuicornis (Thysanoptera)
Parmena balteatus (Coleoptera)

ALOCASIA:

Brevipalpus phoenicis (Acarina)

ALPINIA:

Bradybaena similaris (Mollusea) Ceroplastes rubens (Homoptera) Orchidophilus aterrimus (Coleoptera) Oxydema fusiforme (Coleoptera)

ALTHAEA:

Trialeurodes abutilonea (Homoptera)

ALYXIA:

Ceroplastes rubens (Homoptera)

AMARYLLIS:

Trionymus lounsburyi (Homoptera)

AMBROSIA:

Pachyzancla bipunctalis(?) (Lepidoptera)

ANANAS:

Dysdercus mimus (Hemiptera)
Euetheola bidentata (Coleoptera)
Noropsis hieroglyphica (Lepidoptera)
Pheidole megacephala (Hymenoptera)
Ribua innoxia (Lepidoptera)
"Targionia" bromiliae (Homoptera)
Thecla zeba (Lepidoptera)

ANEMONE:

Thrips flavus (Thysanoptera)

ANNONA:

Cerconota anonella (Lepidoptera) Iridomyrmex humilis (Hymenoptera) Pseudococcus citricus (Homoptera) Talponia batesi (Lepidoptera)

ANTHURIUM:

Bradybaena similaris (Mollusca)
Ceroplastes rubens (Homoptera)
Chrysomphalus albopictus (Homoptera)
Chrysomphalus umboniferus (Homoptera)
Lepidosaphes tokionis (Homoptera)
Orchidophilus aterrimus (Coleoptera)
Pinnaspis buxi (Homoptera)
Pseudischnaspis alienus (Homoptera)

ANTIRRHINUM:

Haplothrips gowdeyi (Thysanoptera) Thrips flavus (Thysanoptera)

APIUM:

Deroceras reticulatum (Mollusca) Euleia heraclei(?) (Diptera)

APOLLONIAS:

Targionia laurina (Homoptera)

APONOGETON:

Monomorium destructor (Hymenoptera)

ARACHIS:

Caryedon fuscus (Coleoptera) Trogoderma granarium (Coleoptera)

ARALIA

Coccus viridis (Homoptera)

ARMERIA:

Helix aspersa (Mollusca)

ARMORACIA:

Tyrophagus infestans (Acarina)

ARTOCARPUS:

Pheidole megacephala (Hymenoptera)

ASCOCENTRUM:

Parlatoria proteus (Homoptera)

ASPLENIUM:

Pheidole megacephala (Hymenoptera)

ASTER:

Taeniothrips atratus (Thysanoptera)
Thrips major (Thysanoptera)

BAMBOO:

Asterolecanium bambusae (Homoptera)
Asterolecanium miliaris (Homoptera)
Asterolecanium miliaris miliaris (Homoptera)
Asterolecanium miliaris robustum (Homoptera)
Lyctoxylon japonum (Coleoptera)
Lyctus africanus (Coleoptera)
Trogoderma parabile(?) (Coleoptera)

BAMBUSA:

Aspidiotus destructor (Homoptera)

BAUHINIA:

Tetraleurodes acaciae (Homoptera)

BELLIS:

Thrips flavus (Thysanoptera)

BETA:

Gnorimoschema ocellatella (Lepidoptera) Tyrophagus infestans (Acarina)

BETULA:

Arge pullata (Hymenoptera)

BOUGAINVILLEA:

Sybra alternans (Coleoptera)

BRASSAIA:

Protopulvinaria pyriformis (Homoptera)

BRASSAVOLA:

Conchaspis orchidarum (Homoptera) Furcaspis biformis (Homoptera) Pseudischnaspis alienus (Homoptera) Vinsonia stellifera (Homoptera)

BRASSIA:

Leucaspis cockerelli (Homoptera) Vinsonia stellifera (Homoptera) Zonitoides arboreus (Mollusca)

BRASSICA CHINENSIS:

Barathra brassicae (Lepidoptera) Deroceras reticulatum (Mollusca) Nezara viridula (Hemiptera)

BRASSICA OLERACEA ACEPHALA:

Phytomyza rufipes (Diptera)

BRASSICA OLERACEA BOTRYTIS:

Dercceras reticulatum (Mollusca) Phytomyza rufipes (Diptera)

BRASSICA OLERACEA CAPITATA:

Deroceras reticulatum (Mollusca) Mamestra brassicae (Lepidoptera) Phytomyza rufipes (Diptera)

BRASSICA PEKINENSIS:

Barathra brassicae (Lepidoptera)

BRASSICA RAPA:

Acalymma trivittata (Coleoptera)
Acrolepia assectella (Lepidoptera)
Deroceras reticulatum (Mollusca)
Hellula undalis (Lepidoptera)
Limax marginatus (Mollusca)
Phytomyza rufipes (Diptera)
Psylliodes chrysocephala (Coleoptera)

BROMELIACEAE:

Plagiodera thymaloides (Coleoptera)

BROMELIAD:

Calligrapha labyrinthica (Coleoptera) Cryphula apicatus (Hemiptera) Diabrotica porracea (Coleoptera) Furcaspis biformis (Homoptera) Galgupha punctifer (Hemiptera) Galgupha quadrisignata (Hemiptera) Limax marginatus (Mollusca) Nasutitermes corniger (Isoptera) Ogdoecosta catenulata (Coleoptera) Paromius longulus (Hemiptera)

BROMUS:

Luzulaspis kondarensis (Homoptera)

BROUGHTONIA:

Asterolecanium epidendri (Homoptera) Chrysomphalus odontoglossi (Homoptera) Leucaspis cockerelli (Homoptera) Vinsonia stellifera (Homoptera)

BRYOPHYLLUM:

Deroceras reticulatum (Mollusca) Pulvinaria psidii (Homoptera)

BUXUS:

Cenopalpus pulcher (Acarina) Chionaspis salicis (Homoptera) Eriophyes canestrinii (Acarina) Parlatoria camelliae (Homoptera) Procryptotermes hubbardi (Isoptera) Spanioneura fonscolombei (Homoptera)

CACTUS:

Amitermes wheeleri (Isoptera) Ceratitis capitata (Diptera) Lepidosaphes philococcus (Homoptera) Pseudodiaspis yuccae (Homoptera) Reticulitermes tibialis (Isoptera)

CAJANUS:

Acanthoscelides armitagei (Coleoptera) Ancylostomia stercorea (Lepidoptera) Chalcodermus aeneus (Coleoptera) Fundella pellucens (Leipidoptera) Maruca testulalis (Lepidoptera) Pheidole megacephala (Hymenoptera)

CALADIUM:

Pentalonia nigronervosa (Homoptera)

CALLUNA:

Frankliniella intonsa (Thysanoptera)
Gelechia ericetella (Lepidoptera)
Micrelus ericae (Coleoptera)
Scolopostethus decoratus (Hemiptera)
Taeniothrips atratus (Thysanoptera)
Taeniothrips ericae (Thysanoptera)
Thrips major (Thysanoptera)

CALOCARPUM:

Anastrepha ludens (Diptera) Anastrepha serpentina (Diptera)

CALOPHYLLUM:

Dacus dorsalis (Diptera)

CAMELLIA:

Aleurotrachelus camelliae (Homoptera)
Aspidiotus degeneratus (Homoptera)
Aspidiotus destructor (Homoptera)
Ceroplastes rubens (Homoptera)
Fiorinia theae (Homoptera)
Lepidosaphes kamakurensis (Homoptera)
Parlatoria camelliae (Homoptera)
Pulvinaria camelicola (Homoptera)
Pulvinaria floccifera (Homoptera)
Stephanitis nashi (Hemiptera)

CANAVALIA:

Lampides boeticus (Lepidoptera) Maruca testulalis (Lepidoptera)

CANNABIS:

Pseudischnaspis bowreyi (Homoptera)

CAPSICUM:

Ceratitis capitata (?) (Diptera)
Faustinus cubae (Coleoptera)
Gnorimoschema gudmannella (Lepidoptera)
Ligyrocoris aurivilliuna (Hemiptera)
Nezara viridula (Hemiptera)
Pachyzancla periusalis (Lepidoptera)
Playnota rostrana (Lepidoptera)
Pyrausta nubilalis (Lepidoptera)

CARICA:

Pseudoparlatoria ostreata (Homoptera)

CARNEGIEA:

Pseudodiaspis yuccae (Homoptera)

CASSIA

Aganactesis indecora (Lepidoptera) Caryedon fuscus (Coleoptera) Ectomyelois ceratoniae (Lepidoptera) Phelomerus aberrans (Coleoptera)

CASTANEA:

Curculio elephas (Coleoptera) Hemimene juliana (Lepidoptera) Laspeyresia splendana (Lepidoptera)

CATTLEYA:

Asterolecanium epidendri (Homoptera)
Chrysomphalus tenax (Homoptera)
Chrysomphalus umboniferus (Homoptera)
Cryptoblabes gnidiella (Lepidoptera)
Furcaspis biformis (Homoptera)
Pseudischnaspis alienus (Homoptera)
Puto ulter (Homoptera)
Vinsonia stellifera (Homoptera)

CENTAUREA:

Frankliniella panamensis (Thysanoptera)

CERATONIA:

Aspidiotus aharonii (Homoptera) Neodryocoetes guianae (Coleoptera)

CHAENOMALES:

Ceroplastes japonicus (Homoptera)

CHAMAEDOREA:

Chrysomphalus albopictus (Homoptera) Chrysomphalus sphaerioides (Homoptera) Dinaspis aculeata (Homoptera) Eugeraeus unifasciatus (?) (Coleoptera) Lycophotia ornea (Lepidoptera)

CHRYSANTHEMUM:

Blissus pulchellus (Hemiptera)
Bryobia cristata (Acarina)
Conotelus mexicanus (Coleoptera)
Euschistus servus (Hemiptera)
Frankliniella formosae (Thysanoptera)
Frankliniella schultzei (Thysanoptera)
Taeniothrips hawaiiensis (Thysanoptera)
Thrips flavus (Thysanoptera)
Thrips imaginis (Thysanoptera)

CICER:

Bruchus tristis (Coleoptera)

CICHORIUM:

Helix aspersa (Mollusca) Lygus gemellatus (Hemiptera) Phytomyza rufipes (Diptera)

CINNAMOMUM:

Aspidiotus palmae (Homoptera)

CITRUS AURANTIFOLIA:

Aleurocanthus woglumi (Homoptera)
Anastrepha ludens (Diptera)
Ceratitis capitata (?) (Diptera)
Leucaspis cockerelli (Homoptera)
Parlatoria cinerea (Homoptera)
Parlatoria zizyphus (Homoptera)
Phyllocnistis citrella (Lepidoptera)
Pseudaonidia trilobitiformis (Homoptera)
Unaspis yanonensis (Homoptera)

CITRUS AURANTIUM:

Aleurocanthus woglumi (Homoptera) Anastrepha ludens (Diptera) Unaspis yanonensis (Homoptera)

CITRUS GRANDIS:

Aonidiella inornata (Homoptera) Leucaspis cockerelli (Homoptera) Parlatoria zizyphus (Homoptera) Prays endocarpa (Lepidoptera)

CITRUS LIMON:

Aonidiella inornata (Homoptera)
Ceratitus capitata (Diptera)
Ceroplastes sinensis (?) (Homoptera)
Cryptoblabes gnidiella (Lepidoptera)
Parlatoria cinerea (Homoptera)
Parlatoria zizyphus (Homoptera)
Pseudaonidia trilobitiformis (Homoptera)
Unaspis citri (Homoptera)
Unaspis yanonensis (Homoptera)

CITRUS PARADISI:

Anastrepha ludens (Diptera)
Gymnandrosoma aurantianum (Lepidoptera)
Leucaspis cockerelli (Homoptera)
Morganella longispina (Homoptera)
Olethreutes leucotreta (Lepidoptera)
Parlatoria cinerea (Homoptera)
Parlatoria zizyphus (Homoptera)
Unaspis citri (Homoptera)
Unaspis yanonensis (Homoptera)

CITRUS RETICULATA:

Aonidiella inornata (Homoptera)
Bemisia citricola(?) (Homoptera)
Ceratitis capitata (Diptera)
Chrysomphalus bifasciculatus (Homoptera)
Morganella longispina (Homoptera)
Parlatoria zizyphus (Homoptera)
Unaspis yanonensis (Homoptera)

CITRUS SINENSIS:

Acrosternum heegeri (Hemiptera) Aleurocanthus woglumi (Homoptera) Aleurothrixus floccosus (Homoptera)
Aleurothrixus myrtacei (Homoptera)
Anastrepha ludens (Diptera)
Brevipalpus phoenicis (Acarina)
Ceratitis capitata (Diptera)
Chrysomphalus diversicolor (Homoptera) (as defined by McKenzie).
Cryptoblabes gnidiella (Lepidoptera)
Leucaspis cockerelli (Homoptera)
Monomorium destructor (Hymenoptera)
Morganella longispina (Homoptera)
Olethreutes leucotreta (Lepidoptera)
Parlatoria cinerea (Homoptera)
Parlatoria zizyphus (Homoptera)
Phyllocnistis saligna (Lepidoptera)
Pseudaonidia trilobitiformis (Homoptera)
Pseudococcus citricus (Homoptera)
Tetraleurodes ursorum (Homoptera)
Unaspis citri (Homoptera)
Unaspis yanonensis (Homoptera)

CITUS SP.:

Aleurocanthus woglumi (Homoptera)
Aleurothrixus floccosus (Homoptera)
Coccus viridis (Homoptera)
Dialeurodes citrifolii (Homoptera)
Eutetranychus banksi (Acarina)
Orthezia pseudinsignis (Homoptera)
Parlatoria citri (Homoptera)
Parlatoria zizyphus (Homoptera)
Tetraleurodes ursorum (Homoptera)
Trialeurodes vitrinellus (Homoptera)
Unaspis yanonensis (Homoptera)

COCOS:

Agonoxena argaula (Lepidoptera)
Aonidiella inornata (Homoptera)
Aspidiotus destructor (Homoptera)
Aspidiotus palmae (Homoptera)
Chrysomphalus albopictus (Homoptera)
Chrysomphalus personatus (Homoptera)
Chrysomphalus tingi (Homoptera)
Dacus dorsalis (Diptera)
Diocalandra taitensis (Coleoptera)
Ereunetis flavistriata (Lepidoptera)
Furcaspis oceanica (Homoptera)
Lepidosaphes mcgregori (Homoptera)
Pseudococcus palmarum (Homoptera)
Rhinostomus barbirostris (Coleoptera)

CODIAEUM:

Lepidosaphes tokionis (Homoptera) Parlatoria crotonis (Homoptera)

COFFEA:

Ceratitis capitata (Diptera) Coccus viridis (Homoptera) Dacus dorsalis (Diptera) Stephanoderes hampei (Coleoptera)

COLLINIA:

Aleuroplatus variegatus (Homoptera) Coelonertus nigrirostris (Coleoptera)

CONVALLARIA:

Frankliniella intonsa (Thysanoptera) Limothrips denticornis (Thysanoptera)

COPAIFERA:

Platypus rugulosus (Coleoptera)

CORDIA

Mimosestes sallaei (Coleoptera) Tetranychus desertorum (Acarina)

CORDYLINE:

Bradybaena similaris (Mollusca)
Lepidosaphes tokionis (Homoptera)
Pheidole megacephala (Hymenoptera)
Pinnaspis buxi (Homoptera)
Plusia chalcites (Lepidoptera)
Sybra alternans (Coleoptera)

CORNUS:

Anoecia corni (Homoptera)

CORYLOPSIS:

Aleurotuberculatus magnoliae (Homoptera)

CORYLUS:

Curculio nucum (Coleoptera)

COTONEASTER:

Ceroplastes japonicus (Homoptera) Ceroplastes rubens (Homoptera) Pseudaonidia paeoniae (Homoptera)

CRATAEGUS:

Grapholitha packardi (Lepidoptera) Trogoderma parabile (Coleoptera)

CROTALARIA:

Callosobruchus phaseoli (Coleoptera)

CRYPTOMERIA:

Aspidiotus cryptomeriae (Homoptera)

CUCUMIS:

Dacus cucurbitae (?) (Diptera)
Ligyrocoris aurivilliana (Hemiptera)
Naupactus xanthographus (Coleoptera)
Pyrausta nubilalis (Lepidoptera)
Texananus spatulatus (Homoptera)

CUCURBITA:

Dacus cucurbitae (Diptera) Ferrisia virgata (Homoptera)

CUPRESSUS:

Lepidosaphes pallida (Homoptera)

CUSSONIA:

Diaspis zamiae (Homoptera)

CYCAD:

Ozophora concava (Hemiptera)

CYCAS:

Aonidiella inornata (Homoptera)

CYDONIA:

Anastrepha ludens (Diptera) Ceratitis capitata (Diptera) Ectomyelois ceratoniae (Lepidoptera)

CYMBIDIUM:

Lepidosaphes tuberculata (Homoptera) Pseudaonidia curculiginis (Homoptera) Zonitoides arboreus (Mollusca)

CYNARA:

Apion carduorum (Coleoptera)

CYNODON:

Antonina graminis (Homoptera) Odonas pis ruthae (Homoptera)

CYPRIPEDIUM:

Coccus capparidis (Homoptera)

CYRTOPODIUM:

Aspidiotus destructor (Homoptera)

CYTISUS:

As pidiotus mairei (Homoptera) Chionas pis salicis (Homoptera)

DAHLIA:

Frankliniella intonsa (Thysanoptera) Hepialus humuli (Lepidoptera) Taeniothrips atratus (Thysanoptera)

DAUCUS:

Limax marginatus (Mollusca)

DELPHINIUM:

Thrips imaginis (Thysanoptera)

DENDROBIUM:

Aspidiotus australiensis (Homoptera) Aspidiotus palmae (Homoptera) Chrysomphalus pinnulifera (Homoptera)
Ferrisia virgata (Homoptera)
Halticus chrysolepis (Hemiptera)
Morganella longispina (Homoptera)
Orchidophilus aterrimus (Coleoptera)
Oxydema fusiforme (Coleoptera)
Phenacaspis dendrobii (tentative) (Homoptera)
Pinnaspis buxi (Homoptera)

DIANTHUS:

Dysdercus honestus (Hemiptera)
Frankliniella formosae (Thysanoptera)
Haplothrips gowdeyi (Thysanoptera)
Iridomyrmex humilis (Hymenoptera)
Taeniothrips dianthi (Thysanoptera)
Taeniothrips hawaiiensis (Thysanoptera)

DIEFFENBACHIA:

Ferrisia virgata (Homoptera) Neoleucon rubrotylus (Hemiptera)

DIOSCOREA:

Palaeopus costicollis (Coleoptera) "Targionia" hartii (Homoptera)

DIOSPYROS:

Lepidosaphes conchiformis (Homoptera) Lepidosaphes tubulorum (Homoptera) Pseudococcus azaleae (Homoptera) Pseudococcus kraunhiae (Homoptera)

DISTYLIUM:

Aulacaspis latissimus (Homoptera)

DRACAENA:

Chrysomphalus sphaerioides (Homoptera)

ELAEODENDRON:

Diaspis zamiae (Homoptera)

EPHEDRA:

Leucaspis riccae (Homoptera)

EPIDENDRUM:

Asterolecanium epidendri (Homoptera)
Chrysomphalus umboniferus (Homoptera)
Eurytoma orchidearum(?) (Hymenoptera)
Furcaspis biformis (Homoptera)
Pseudischnaspis alienus (Homoptera)
Pseudoparlatoria ostreata (Homoptera)
Tenthecoris angustimarginatus (Hemiptera)
Tenthecoris distinguendus (Hemiptera)
Vinsonia stellifera (Homoptera)

ERICA:

Iridomyrmex humilis (Hymenoptera)
Pseudothrips glaucus(?) (Thysanoptera)

ERIOBOTRYA:

Ectomyelois ceratoniae (Lepidoptera)

ERYTHRINA:

Aspidiotus herculeanus (Homoptera)

ESENBECKIA:

Bradybaena similaris (Mollusca)

EUGENIA:

Anastrepha mombin praeoptans (Diptera) Dacus dorsalis (Diptera)

EUGENIA(?):

Trialeurodes lauri (Homoptera)

EUONYMUS:

Lecanium corni (Homoptera)

EUPHORBIA:

Cryptophlebia illepida (Lepidoptera) Iridomyrmex humilis (Hymenoptera)

EURYA:

Lepidosaphes tubulorum (Homoptera)
Parlatoria camelliae (Homoptera)

FATSIA:

Chrysomphalus bifasciculatus (Homoptera)

FERN:

Deroceras reticulatum (Mollusca)

FEROCACTUS:

Lepidosaphes philococcus (Homoptera)

FIOUS:

Ceratitis capitata (Diptera) Ceroplastes rusci (Homoptera) Epidiaspis piricola (Homoptera) Lepidosaphes ficus (Homoptera)

FORTUNELLA:

Unaspis yanonensis (Homoptera)

FRAGARIA:

Aleyrodes lonicerae (Homoptera)

FREESIA:

Iridomyrmex humilis (Hymenoptera)

GARDENIA:

Aleuroparadoxus gardeniae (Homoptera)
Ceroplastes rubens (Homoptera)
Coccus viridis (Homoptera)
Dialeurodes kirkaldyi (Homoptera)
Eucalymnatus tessellatus (Homoptera)
Ferrisia virgata (Homoptera)
Pulvinaria psidii (Homoptera)
Taeniothrips hawaiiensis (Thysanoptera)

GENTIANA:

Stenoptilia stigmatodactyla (Lepidoptera) Taeniothrips picipes (Thysanoptera)

GERBERA:

Coccus viridis (Homoptera) Haplothrips gowdeyi (Thysanoptera)

GLADIOLUS:

Frankliniella formosae (Thysanoptera) Frankliniella panamensis (Thysanoptera) Phera centrolineata (Homoptera) Rhoecocoris sulciventris(?) (Hemiptera)

GONGORA:

Furcaspis biformis (Homoptera)

GOSSYPIUM:

Bucculatrix thurberiella (Lepidoptera)
Ferrisia virgata (Homoptera)
Jadera sanguinolenta (Hemiptera)
Pectinophora gossypiella (Lepidoptera)
Platynota rostrana (Lepidoptera)

GREVILLEA:

Asterolecanium petrophilae (Homoptera)

HEDERA:

Brevipalpus obovatus (Acarina) Ceroplastes rubens (Homoptera) Chrysomphalus bifasciculatus (Homoptera)

HELICHRYSUM:

Frankliniella intonsa (Thysanoptera)

HELICONIA:

Vinsonia stellifera (Homoptera)

HIBISCUS:

Bemisia tabaci (Homoptera) Pachybrachius albocinctus (Hemiptera) Pectinophora gossypiella (Lepidoptera)

HORDEUM:

Limothrips denticornis (Thysanoptera)

HYMENAEA:

Rhinochenus stigma (Coleoptera)

ILEX:

Aleurotuberculatus aucubae (Homoptera) Aleurotuberculatus similis (Homoptera) Aonidiella lauretorum (Homoptera)
Ceronema japonica (?) (Homoptera)
Ceroplastes rubens (Homoptera)
Chrysomphalus bifasciculatus (Homoptera)
Deroceras reticulatum (Mollusca)

IOCHROMA:

Brevipalpus obovatus (Acarina)

IODINA:

Tetranychus cinnabarinus (Acarina)

IPOMOEA:

Cylas femoralis (Coleoptera)
Cylas formicarius ssp. (Coleoptera)
Cylas formicarius var. (Coleoptera)
Cylas formicarius elegantulus (Coleoptera)
Cylas formicarius formicarius (Coleoptera)
Cylas puncticollis (Coleoptera)
Euscepes postfasciatus (Coleoptera)
Spermophagus sericeus (?) (Coleoptera)
Sybra alternans (Coleoptera)

IRIS

Iridothrips iridis (Thysanoptera)

IXORA:

Coccus viridis (Homoptera)
Pheidole megacephala (Hymenoptera)
Protopulvinaria pyriformis (Homoptera)
Pseudaonidia trilobitiformis (Homoptera)

JASMINUM:

Aonidiella comperei (Homoptera) Aspidiotus palmae (Homoptera) Coccus viridis (Homoptera) Dialeurodes kirkaldyi (Homoptera)

JUGLANS:

Ectomyelois ceratoniae (Lepidoptera) Rhagoletis juglandis (Diptera)

JUNCUS:

Nipponaclerda biwakoensis (Homoptera)

JUNIPERUS:

Lepidosaphes newsteadi (Homoptera) Lepidosaphes pallida (Homoptera) Lineaspis striata (Homoptera) Pentamerismus oregonensis (Acarina)

KIGELIA:

Ectomyelois ceratoniae (Lepidoptera)

LACTUCA:

Deroceras reticulatum (Mollusca)
Helix aspersa (Mollusca)
Milax gagetes (?) (Mollusca)
Myzus ascalonicus (Homoptera)
Nysius vinitor (Hemiptera)
Thrips angusticeps (Thysanoptera)

LAELIA:

Anaphothrips orchidaceus (Thysanoptera)
Furcaspis biformis (Homoptera)
Plagiodera thymaloides (Coleoptera)
Puto ulter (Homoptera)

LANSIUM:

Pseudococcus lilacinus (Homoptera)

LATHYRUS:

Bruchus tristis (Coleoptera)
Taeniothrips atratus (Thysanoptera)
Thrips flavus (Thysanoptera)
Thrips major (Thysanoptera)

LAURUS:

Aleuroplatus plumosus (Homoptera) Trialeurodes lauri (Homoptera)

LAVANDULA:

Frankliniella intonsa (Thysanoptera)

LENS:

Bruchus ervi (Coleoptera) Bruchus signaticornis (Coleoptera)

LEUCAENA:

Araecerus levipennis (Coleoptera) Sybra alternans (Coleoptera)

LICUALA:

Aspidiotus destructor (Homoptera)

LILIUM:

Frankliniella formosae (Thysanoptera) Phenacoccus gossypii (Homoptera) Ripersiella palastiniae (Homoptera) Taeniothrips hawaiiensis (Thysanoptera)

LIRIOPE:

Pinnaspis caricis (Homoptera)

LITCHI:

Cryptophlebia illepida (Lepidoptera) Fiorinia nephelii (Homoptera) Icerya seychellarum (Homoptera) Pulvinaria psidii (Homoptera)

LOCKHARTIA:

Conchaspis orchidarum (Homoptera)

LOLIUM:

Hypera postica (Coleoptera)

LUCUMA:

Anastrepha serpentina (Diptera)

LUPINUS:

Acanthoscelides spinipes (Coleoptera) Bruchus tristis (Coleoptera)

LYCASTE:

Puto ulter (Homoptera)

LYCOPERSICON:

Dacus cucurbitae (Diptera)
Dacus dorsalis (Diptera)
Exptochiomera oblonga (Hemiptera)
Gnaphalodes trachyderoides (Coleoptera)
Neoleucinodes elegantalis (Lepidoptera)
Platynota rostrana (Lepidoptera)
Pyrausta nubilalis (Lepidoptera)

LYCORIS:

Taeniothrips gracilis (Thysanoptera)

MACADAMIA:

Oxydema fusiforme (Coleoptera) Sybra alternans (Coleoptera)

MALPIGHIA:

Pulvinaria urbicola (tentative) (Homoptera)

MALUS:

Argyresthia conjugella (Lepidoptera)
Carposina niponensis (Lepidoptera)
Epidiaspis piricola (Homoptera)
Parlatoria oleae (Homoptera)
Rhopalosiphum crataegellum (Homoptera)

MALVACEAE:

Pectinophora gossypiella(?) (Lepidoptera)

MANGIFERA:

Anastrepha ludens (Diptera)
Anastrepha mombin praeoptans (Diptera)
Aspidiotus destructor (Homoptera)
Aulacaspis mangiferae (Homoptera)
Aulacaspis tubercularis (Homoptera)
Ceratitis capitata (Diptera)
Chrysomphalus personatus (Homoptera)
Dacus dorsalis (Diptera)
Pseudischnaspis longissima (Homoptera)
Selenothrips rubrocinctus (Thysanoptera)
Sternochetus mangiferae (Coleoptera)

MEDICAGO:

Frankliniella schultzei (Thysanoptera)

MENTHA:

Haplothrips gowdeyi (Thysanoptera)

METROSIDEROS:

Ceroplastes rubens (Homoptera)

MICHELIA:

Brevipalpus obovatus (Acarina)

MOMORDICA:

Dacus cucurbitae (Diptera) Sybra alternans (Coleoptera)

MONSTERA:

Neoleucon rubrotylus (Hemiptera) Pinnaspis buxi (Homoptera) Vinsonia stellifera (Homoptera)

MUSA:

Cosmopolites sordidus (Coleoptera)
Dacus dorsalis (Diptera)
Epilachna borealis aequinoxialis (Coleoptera)
Epilachna paenulata (Coleoptera)
Metamasius sericeus (Coleoptera)
Metamasius sericeus sericeus (Coleoptera)
Platynota rostrana (Lepidoptera)
Porphyrobaphe iostoma (Mollusca)

MUSCARI:

Bouhelia maroccana (Homoptera)

MYRISTICA:

Aspidiotus palmae (Homoptera) Pseudaonidia trilobitiformis (Homoptera)

NARCISSUS:

Lampetia equestris (Diptera) Steneotarsonemus laticeps (Acarina)

NEOMOOREA:

Pinnaspis buxi (Homoptera)

NEPENTHES:

Limax marginatus (Mollusca)

NERIUM:

Chrysomphalus personatus (Homoptera) Haplothrips gowdeyi (Thysanoptera) Morganella longispina (Homoptera)

NIPA:

Aspidiotus destructor (Homoptera)

NYMPHAEA:

Thrips imaginis (Thysanoptera)

ODONTOGLOSSUM:

Aspidiotus mendax (Homoptera) Puto ulter (Homoptera) Tenthecoris bicolor (Hemiptera)

OEONIELLA:

Zonitoides arboreus (Mollusca)

OLEA:

Aleurolobus olivinus (Homoptera)
Ceratitis capitata (Diptera)
Dacus oleae (Diptera)
Ectomyelois ceratoniae (Lepidoptera)
Leucaspis riccae (Homoptera)
Parlatoria oleae (Homoptera)
Phloetribus scarabaeoides (Coleoptera)
Prays oleellus (Lepidoptera)

OLINIA:

Thrips major (Thysanoptera)

ONCIDIUM:

Asterolecanium epidendri (Homoptera) Chrysomphalus umboniferus (tentative) (Homoptera) Farinococcus guatemalensis (Homoptera)

ONCIDIUM-Continued

Furcaspis biformis (Homoptera)

Countries of Origin and Insects

ALGERIA:

Coccus viridis Parlatoria zizyphus

AMERICAN SAMOA:

Parlatoria pseudaspidiotus

AMERICAN VIRGIN ISLANDS:

Vinsonia stellifera

ANGLO-EGYPTIAN SUDAN:

Pectinophora gossypiella

ANGOLA:

Pectinophora gossypiella(?)

ANTIGUA:

Asterolecanium miliaris robustum Dysdercus andreae Pectinophora gossypiella Vinsonia stellifera

ARGENTINA:

Ceratitis capitata
Frankliniella schultzei
Limax marginatus
Parlatoria cinerea
Pseudaonidia trilobitiformis
Tyrophagus infestans
Vallonia pulchella

ARUBA:

Acanthoscelides armitagei

AUSTRALIA:

Aspidiotus australiensis
Aspidiotus palmae
Asterolecanium petrophilae
Eucalymnatus tessellatus
Frankliniella schultzei
Isoneurothrips obscuratus
Lepidosaphes tuberculata
Limax marginatus
Monomorium destructor
Nysius vinitor
Rhoecocoris sulciventris(?)
Sternochetus mangiferae
Thrips imaginis
Zonitoides arboreus

AUSTRALIA(?):

Prodenia litura

AUSTRIA:

Aleyrodes lonicerae

AZORES:

Ceratitis capitata
Haplothrips cottei
Haplothrips gowdeyi
Helix aspersa
Iridomyrmex humilis
Laspeyresia splendana
Pseudococcus citricus
Rhagoletis cerasi

BAHAMAS:

Ancylostomia stercorea
Asterolecanium epidendri
Chalcodermus aeneus
Ectomyelois ceratoniae
Ips calligraphus
Melipotis famelica
Mormidea pictiventris
Pheidole megacephala
Protopulvinaria pyriformis

BARBADOS:

Aspidiotus destructor Chalcodermus aeneus Fundella pellucens Pectinophora gossypiella Protopulvinaria pyriformis Pseudaonidia trilobitiformis

BELGIAN CONGO:

Ceratitis capitata(?)

BELGIUM:

Acrolepia assectella
Anthonomus rectirostris
Deroceras reticulatum
Lecanium coryli
Mamestra brassicae
Phytomyza rufipes
Pityogenes chalcographus
Rhagoletis cerasi
Tyrophagus infestans

BERMUDA:

Bradybaena similaris Deroceras reticulatum Haplothrips gowdeyi Iridomyrmex humilis Morganella longispina Phenacoccus gossypii Pulvinaria psidii

BOLIVIA:

Pseudaonidia trilobitiformis

BRAZIL:

Aleurothrixus floccosus Aleurothrixus myrtacei Anastrepha serpentina A sterolecanium epidendri Bradybaena similaris Brevipalpus obovatus Ceratitis capitata(?) Cerconota anonella Chrysomphalus personatus Dysdercus honestus Euscepes postfasciatus Furcaspis biformis Maruca testulalis Monanthia monotropidia Neoleucinodes elegantalis Parlatoria cinerea Phelomerus aberrans Pseudaonidia trilobitiformis Stenoma catenifer Stephanoderes hampei Trialeurodes tabaci ${m Trogoderma}$ granariumVinsonia stellifera

BRITISH GUIANA:

Aspidiotus destructor Cylas formicarius elegantulus Furcaspis biformis Vinsonia stellifera

BRITISH HONDURAS:

Asterolecanium epidendri Chrysomphalus umboniferus Furcaspis biformis Lecaniodiaspis dendrobii Pseudischnaspis alienus Vinsonia stellifera

BRITISH WEST INDIES:

"Targionia" hartii

CANADA:

Arion circumscriptus
Brachyrhinus ovatus
Chermes piceae
Philaenus leucophthalmus
Pulvinaria vitis
Taeniothrips ericae
Zonitoides arboreus

CANAL ZONE:

Aspidiotus destructor
Asterolecanium epidendri
Brevipalpus phoenicis
Chrysomphalus umboniferus
Conchaspis orchidarum
Furcaspis biformis
Leucaspis cockerelli

CANAL ZONE—Continued

Parlatoria cinerea
Pinnaspis buxi
Pseudischnaspis alienus
Tenthecoris distinguendus
Unaspis citri
Vilga dissimilis
Vinsonia stellifera

CANARY ISLANDS:

Brevipalpus phoenicis
Chrysomphalus diversicolor (as defined by
McKenzie)

CAPE VERDE ISLANDS:

Bruchus luteicornis

CENTRAL AMERICA:

Anastrepha mombin praeoptans Conotrachelus perseae

CEYLON:

Monomorium destructor Tyrophagus infestans

CHILE:

Acledra fraterno
Epinotia aporema
Geniocremnus chilensis
Leptoglossus chilensis
Listroderes subcincta
Lygaeus albo-ornatus
Naupactus xanthographus
Neotermes chilensis
Nezara viridula
Pseudococcus gahani

CHINA:

Parlatoria zizyphus Trogoderma granarium Unaspis yanonensis

COLOMBIA:

Cyrtopeltis modestus
Epinotia aporema
Ferrisia virgata
Frankliniella panamensis
Parlatoria cinerea
Parlatoria pseudaspidiotus
Platypus rugulosus
Pseudaonidia trilobitiformis
Stenoma catenifer
Thecla ziba

COSTA RICA:

Anastrepha mombinpraeoptans
Aspidiotus destructor
Aspidiotus palmae
Asterolecanium epidendri
Chrysomphalus umboniferus
Cosmopolites sordidus
Deroceras reticulatum
Farinococcus guatemalensis
Furcaspis biformis
Ligyrocoris nitidicollis
Limax marginatus
Ortholomus jamaicensis
Pinnaspis buxi
Pseudischnaspis alienus
Puto ulter
Tenthecoris confusus
Tenthecoris distinguendus

CUBA:

Aganactesis indecora
Anastrepha mombinpraeoptans
Andrector ruficornis
Aspidiotus destructor
Asterolecanium epidendri
Asterolecanium miliaris
Coccus viridis
Cylas formicarius elegantulus
Faustinus cubae
Ferrisia virgata
Furcaspis biformis

Heterobostrychus aequalis Leucaspis cockerelli Limax marginatus Micrutalis apicalis Noropsis hieroglyphica Pachybrachius albocinctus Parlatoria crotonis Parlatoria zizyphus Pectinophora gossypiella Pheidole megacephala Platynota rostrana Pseudischnas pis bowreyi Pseudoparlatoria ostreata Pyrophorus noctilucus Ribua innoxia Tetranychus tumidus Unaspis citri Vinsonia stellifera Zeadiatraea lineolata

DENMARK:

Frankliniella intonsa Limothrips denticornis Molorchus minor

DOMINICAN REPUBLIC:

Aleurothrixus floccosus
Anastrepha mombinpraeoptans
Ancylostomia stercorea
Cylas formicarius elegantulus
Dialeurodes citrifolii
Leucaspis cockerelli
Pectinophora gossypiella
Platynota rostrana
Ribua innoxia
Systole geniculata
Trionymus sacchari

ECUADOR:

Chrysomphalus umboniferus
Cosmopolites sordidus
Epilachna borealis aequinoxialis
Epilachna paenulata
Exptochiomera confusa
Laspeyresia fabivora
Metamasius sericeus
Metamasius sericeus sericeus
Neoleucinodes elegantalis
Pagiocerus fiorii
Porphyrobaphe iostoma
Stenoma catenifer

EGYPT:

Callosobruchus phaseoli Ceratitis capitata Stephanodreres hampei

ELEUTHERA ISLAND: Pectinophora gossypiella

EL SALVADOR:

Anastrepha mombin praeoptans
Aulacas pis mangiferae
Aulacas pis tubercularis
Chrysom phalus umboniferus
Deroceras reticulatum
Furcas pis biformis
Pseudischnas pis alienus
Pseudoparlatoria ostreata
Stenoma catenifer
Vinsonia stellifera

ENGLAND:

Aleuroplatus plumosus
Anoecia corni
Argyresthia conjugella
Brevipalpus oncidii
Dactylotrypes uyttenboogaarti
Deroceras reticulatum
Dialeurodes chittendeni
Frankliniella intonsa
Frauenfeldiella jelinekii
Gelechia ericetella
Hepialus humuli
Iridothrips iridis

ENGLAND-Continued

Lampetia equestris
Lecanium corni
Lepidosaphes tuberculata
Myzus ascalonicus
Phytomyza rufipes
Pulvinaria camelicola
Steneotarsonemus laticeps
Taeniothrips atratus
Thrips flavus
Thrips fuscipennis
Thrips major
Trogoderma granarium
Zonitoides arboreus

ENIWETOK (?):

Sternochetus mangiferae

FEDERATION OF MALAYA:

Furcaspis biformis Parlatoria zizyphus Prays endocarpa

FIJI ISLANDS:

Aspidiotus herculeanus Lepidosaphes tuberculata Morganella longispina Unaspis citri

FINLAND:

Arge pullata

FORMOSA:

Ceroplastes rubens Lepidosaphes tuberculata Parlatoria zizyphus Trogoderma granarium

FRANCE:

Aceria macrochelus
Acrolepia assectella
Aspidiotus mairei
Asterobemisia carpini
Brevipalpus phoenicis
Curculio elephas
Deroceras reticulatum
Helix aspersa
Hypera punctata
Laspeyresia splendana
Lecanium corni
Lecanium coryli
Leucaspis loewi
Obrium cantharinum(?)
Parlatoria zizyphus
Phytomyza rufipes
Pseudococcus gahani
Psylliodes chrysocephala
Pulvinaria vitis
Rhagoletis cerasi
Taeniothrips atratus
Thrips major

FRANCE(?):

Ceratitis capitata

FRENCH WEST AFRICA:

Hellula undalis Palaeocorynus nigrosignatus Parlatoria zizyphus Tyrophagus infestans

GERMANY:

Acalypta brunnea
Aleyrodes lonicerae
Argyresthia conjugella
Arion circumscriptus
Brachyrhinus porcatus
Brevipalpus obovatus
Cepaea nemoralis
Frankliniella intonsa
Gelechia ericetella
Ips combrae
Lampetia equestris
Milax gagates(?)
Phytomyza rusipes

Rhagolets cerasi
Steneotarsonemus laticeps
Taeniothrips atratus
Taeniothrips dianthi
Taeniothrips ericae
Thrips flavus
Thrips major

GHANA:

Maruca testulalis

GRAND CAYMAN:

Microcerotermes arboreus

GREECE:

Bruchus tristis
Ceratitis' capitata
Cryptoblabes gnidiella
Curculio elephas
Ectomyelois ceratoniae
Hypera postica
Laspeyresia splendana
Leucaspis riccae
Parlatoria oleace
Pseudococcus citricus
Ripersiella palastiniae
Trogoderma inclusum

GRENADA:

Furcaspis biformis

GUAM:

Achatina fulica Aonidiella inornata Ceresium unicolor Lepidosaphes mcgregori Pheidole megacephala Sternochetus mangiferae

GUATEMALA:

Anastrepha ludens
Anastrepha mombinpraeoptans
Aspidiotus mendax
Aspidiotus palmae
Asterolecanium epidendri
Chrysomphalus tenax
Chrysomphalus umboniferus
Deroceras reticulatum
Farinococcus guatemalensis
Furcaspis biformis
Iridomyrmex iniquus
Lepidosaphes tuberculata
Ligyrocoris aurivilliana
Limax marginatus
Nysius raphanus
Paromius longulus
Pseudoparlatoria ostreata
Puto ulter
Stenoma catenifer
Tenthecoris bicolor
Tenthecoris confusus
Tenthecoris vestitus
Vinsonia stellifera

HAITI:

Anastrepha mombinpraeoptans Bemisia tabaci Cylas formicarius elegantulus Haplothrips gowdeyi Nezara viridula

HAWAII:

Adoretus sinicus
Anomala orientalis
Araecerus levipennis
Athesapeuta cyperi
Bradybaena similaris
Caryedon fuscus
Ceratitis capitata
Ceroplastes rubens

MONSTERA:

Meloidogyne incognita acrita (Nematoda)

MORMODES:

Sphenospora mera(?) (Promycetes)

MUSA:

Cercospora musae (Deuteromycetes) Colletotrichum musae (Deuteromycetes) Macrophoma musae (Deuteromycetes) †Memnoniella echinata (Deuteromycetes)

NARCISSUS:

Ceratocystis narcissii (Ascomycetes) Ditylenchus dipsaci (Nematoda)

NERIUM:

Cercospora neriella (Deuteromycetes) Pseudomonas tonelliana (Schizomycetes)

ODONTOGLOSSUM:

Cercospora angraeci (Deuteromycetes) Septoria selenophomoides (Deuteromycetes)
Uredo oncidii(?) (Promycetes)

ONCIDIODA:

† Cercospora odontoglossi (Deuteromycetes)

ONCIDIUM:

†Cercospora angraeci (Deuteromycetes) Micropeltis bakeri (Ascomycetes) Pestalotia conspicua (Deuteromycetes) Septonema intercalare (Deuteromycetes) Septoria selenophomoides (Deuteromycetes) †Sphenospora kevorkianii (Promycetes)

Host and Diseases-Continued

ONCIDIUM—Continued

Uredo behnickiana (Promycetes) Uredo epidendri (Promycetes) Uredo oncidii (Promycetcs)

ORCHID:

Cercospora angraeci (Deuteromycetes)
Micropeltis bakeri (Ascomycetes)
Periconia pycnospora (Deuteromycetes)
Pestalotia conspicua (Deuteromycetes)
Phyllostictina pyriformis (Deuteromycetes)
Septonema intercalare (Deuteromycetes)
†Septoria selenophomoides (Deuteromycetes)
†Sphenospora kevorkianii (Promycetcs)
†Uredo epidendri (Promycetes)
Volutella albo-pila (Deuteromycetes)

OREOCHARIS:

Meloidogyne hapla (Nematoda)

ORNITHOGALUM:

Didymellina ornithogali (Ascomycetes)
Heterosporium ornithogali (Deuteromycetes)
Puccinia ornithogali-thyrsoides (Promycetes)

ORYZA:

‡Aspergillus mangini (Deuteromycetes)
Chlamydomyces palmarum (Deuteromycetes)
Entyloma oryzae (Promycetes)
